Level 4 - Practicum in Construction

		BACHELOR'S DEGREE	MASTER'S/ DOCTORAL PROFESSIONAL DEGREE
Tradesman Plumber – Limited License	Plumbing Technology/ Plumber	Construction Science Operations Management and Supervision	Construction Management Operations Management and Supervision

TYPE OF WORK A TRADESMAN PLUMBER-LIMITED LICENSE HOLDER CAN DO

A Tradesman Plumber Limited licensee is able to install and repair water, gas, and other piping systems in homes. They can install plumbing fixtures, such as bathtubs and toilets, and appliances, such as dishwashers and water heaters. They can clean drains, remove obstructions, and repair or replace broken pipes and fixtures.

In addition, as a plumber progresses through the licensing ranks the plumber may also learn and develop an interest in more specialized plumbing such as the installation of medical gas piping and residential fire sprinkler system installations at the Journeyman and Master license levels. Both of these license levels require additional training and an examination to obtain the applicable endorsement on the Journeyman and/or Master license.

See what you can earn with a Tradesman Plumber – Limited License.

Occupations	Median Wage	Annual Openings	% Growth
Plumber	\$44,928	5,765	23%

A student who successfully completes a plumbing program of study can earn a Business and Industry Endorsement.
