PFAI File Information and Upload Help Template

This document provides detailed information on creating the PFAI student data submission file. Information about all worksheets follows.

Worksheet two, Upload Help, contains definitions of data required for the PFAI student data submission file. Worksheet three contains a spreadsheet with sample data and cell formatting details. The PFAI student data submission file must be saved and uploaded as a csv (comma delimited) (*.csv) file. Data may also be uploaded as a text (*.txt) file.

If errors are reported when uploading data files in PFAI, open the file in Excel or Notepad and view the file to identify and correct errors. Note: If the file is reopened in Excel, formatting that may have existed for columns A, C, and D may be lost and if so, must be reformatted. For details, see Organizing Data for the PFAI File in the Quick-Start Guide.

A formatted spreadsheet for creating the PFAI upload file can be accessed from https://tea.texas.gov/texas-schools/health-safety-discipline/physical-fitness-assessment-initiative.
